

## TERRA-EXTRACTOR X 400 renews cast iron pipe DI 40 mm (1.5")

The German contractor Leonhard Weiss renewed the old broken fresh water lines in the city Crailsheim. This old cast iron pipes had to be replaced by new HDPE pipes OD 63 mm (2.5"). M/s Leonhard Weiss decided to use the cable burster TERRA-EXTRACTOR X 400 with a pullback force of 400 kN (40 tons) for this pipe replacement job.

The automatic cable drum is unloaded from the truck.

The cable burster X 400 in the pit.

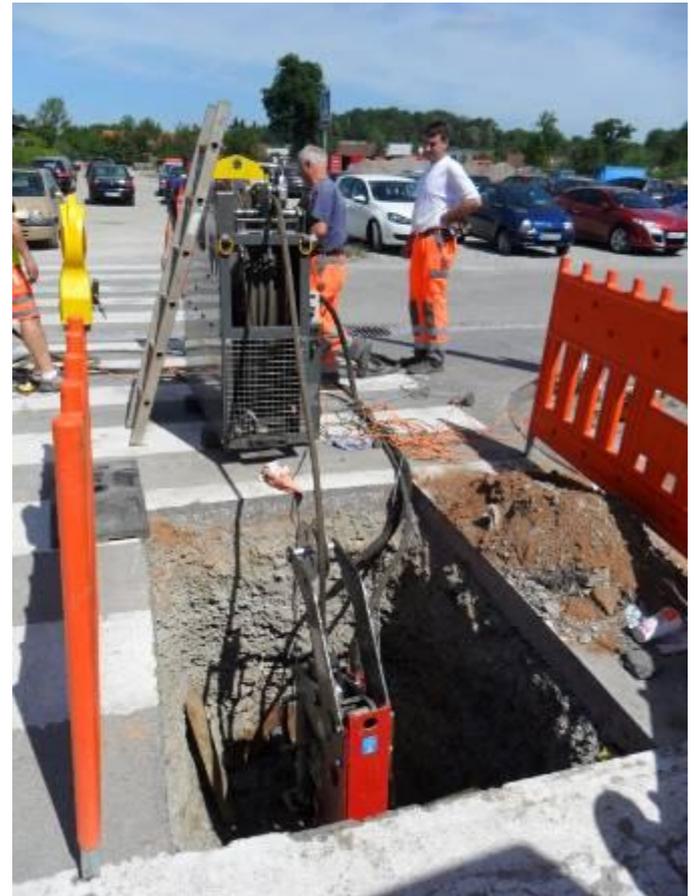

The TERRA-EXTRACTOR X 400 is unloaded from the truck and lifted into the pit.

The pulling cable is pulled through the old pipe with a cable pulling sock ("Chinese finger").

The pulling cable is pulled through the old pipe with a truck.

The automatic cable drum X 400 rolls the pulling cable onto the drum simultaneously with the pipe pulling.
